

Betonflex conduit
710-714
BF16/20/25/32/40

## Description

Concrete strength, flexible and halogen-free conduit with sleek surface inside and outside. This tubing is laid in concrete structures as well as for lying of EL and TT installations in building slabs before pouring concrete. If properly maintained, they have a life expectancy of up to 100 years, making the pipes a cost-effective and long-term piping solution for heavy-duty use.

- pressure resistant up to 750 N
- temperature resistant from $-15^{\circ}$ up to $+60^{\circ} \mathrm{C}$
- diameters: $16 / 20 / 25 / 32 / 40 \mathrm{~mm}$
- easily bent to all angles and all types of wires/cables
